CONSTIPATION GUY SAYS "READ THIS!"

We get anywhere from 2 to 3 million applications a week. So, make this one count. If your work pleases us, we might call you. Your application should not be about "Why I'm Cool." Leave the narcissism to us. For, we are the cool ones here. And now, what you have been waiting for, the creative position application requirements. No slacking.

Writers: We need two ORIGINAL satirical works in order to scientifically appraise comical talent.

- (It's a process of litmus testing and sub-atomic analysis.)
- one must be a full article; 1 to 1.5 pages in length
- it should somewhat resemble the Associated Press style
- the second article can be whatever you want (newsflash, opinion, letter to the editor, etc...)

For Web or Print Design: Explain to us what experience you have in various print or web design software. ie) Dreamweaver, PageMaker, Quark, etc. If you don't know the difference...then you don't have the experience. You must also submit examples of your work.

For Illustrators: We need at least two ORIGINAL humor pieces. ie) cartoons, photoshop manipulations, whatever.

STOP!!! Asslication processing fees are non-refundable.
